Hi Julie,

I hope you had a good vacation. When Stacey and I were at DEA school we had some instruction in GC and GC/MS maintenance and trouble shooting. I'm really interested in learning more. We asked Chuck last week if we could start training in mass spec, and he said that we needed to ask you. May I please start training in mass spec? I have had occasion to go to court and be the person to explain what goes on in mass spec. I do know a little bit about our policies and procedures, but I think it would be beneficial, even just for court purposes, for me to have our lab's mass spec training.

Thanks,

Lisa Glazer
